

# Be Counted!

Every citizen and noncitizen living in McLennan County must be counted.

### It's easy.

You must complete and return the 10-question form upon receiving it in the mail. Census workers will visit households that do not return forms to take a count in person.

### It's important.

Your answers help provide community services such as food banks, schools, hospitals, senior centers and public transportation; they also affect political redistricting.

### It's confidential.

By law, your answers cannot be shared with anyone, including government and law enforcement agencies such as the Internal Revenue Service and Immigration and Customs Enforcement.
