

Community Booth Available at Farmer's Market

The Community Booth at the Waco Downtown Farmers Market is open to local Waco community organizations. We want to feature you and all the good work you are doing, alongside all the good food and farms in our community. The WDFM will provide a 10x10 tent for your organization. Please be at the Market on your confirmed date no longer than 8am (preferably around 7:30am). This allows us to get everything situated before customers start arriving. The Market opens at 9am and will continue until 1pm. Please have your booth staffed at all times. We hope to have the grounds cleared by 2pm - so you should be on your way by then.

Please indicate your 1st and 2nd preference for a date to table. Your organization will be able to have a booth a handful of times per year - so please let us know after your Market Day if you are interested in returning. We want to have participation from as many organizations as possible - so please feel free to nominate another organization as well.

If you have any special needs or further questions, please give me a call or drop me a line.
